Forecast for Sunday 20 Aug 2023

Weather: Clear spells during the overnight period, but some patchy low cloud developing and a low chance of a rogue shower, particularly across southern areas. Bright and breezy on Sunday once early low cloud lifts and clears, with a few showers developing, but many areas staying dry. Turning mainly fine later in the day. Feeling warm with winds lighter than on Saturday.

Chance of cloud-free hill tops above 600m: 50% becoming 95%.

Low cloud and visibility: Periods of cloud above 500m at first, lifting and clearing by late morning. Locally poor visibility in morning cloud and in any heavier showers but generally very good visibility with distant hills clearly visible in between showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Despite not feeling particularly hot due to the breeze, UV levels will be high so remember to protect your skin from the sun.
